ECO-FRIENDLY PRODUCTS

BAG MAKERS has offered eco-conscious product options for more than 20 years. Most of our bags are reusable and many are made with recycled content.

REUSABLE

Most of our bags can be used many times. Reusable products reduce waste in landfills. Plus, reusable products ensure a brand's logo will be seen repeatedly over a long product lifespan.

RECYCLED CONTENT

Using recycled materials helps preserve natural resources, save energy in the manufacturing process, and reduce landfill waste. Post-industrial content is material that's recycled after the manufacturing process, before reaching consumers. Post-consumer recycled content is made from waste that has been used by a consumer, disposed of, and diverted from landfills.
